Tin-Tin Nabulations.

By Cable and Associated Press.

LONDON, June 29.—The Times to-day, referring to the fact that sixty delegates from the tin plate working districts of Wales are going to the United States to inquire into the prospects of profitable employment there, and to the statement made that American agents in London are buying late improvements in tin plate machines as well as offering double wages to tin plate workers, says: "Should the delegates report favorable upon the prospects for the tin plate workers in the United States, it is not unlikely there will be so large an exodus to America as to lead to a great portion of the trade hitherto monopolized by Wales being transferred to America. Hitherto the idea has been that it was impossible to manufacture tin plate in America, owing to atmospheric conditions, but tin plate makers who accompanied the iron and steel institute delegates to America, reported there was nothing except the want of skilled laborers to prevent the successful manufacture of tin plate in America."

Jamaica Rum.

By Cable and Associated Press.

LONDON, June 29.—The Times to-day gives prominence in its columns to a letter from Sir Henry Arthur Blake, Governor and Commander-in-Chief of the island of Jamaica, who is at present in this city. In this communication Blake distinctly contradicts the Dunlap Dalseil dispatch dated New York, June 26th, stating that Jamaica is anxious for reciprocity with the United States and asserting that the inhabitants of that island are holding public meetings in order to advocate the reciprocity idea. Governor Blake, in conclusion, says the merchants and people of Jamaica are anxious to extend their trade in any and every direction, but that Jamaica is not prepared to concede a differential duty to the United States.

Colorado Cyclone.

By Associated Press.

DENVER, June 29.—News has just been received of great destruction by a cyclone which passed over this country, 25 miles east of this city, Thursday night. Houses were blown away, trees uprooted and carried away and crops for miles around completely ruined. A dozen persons were injured, but none seriously. C. S. Clark, who has a ranch near Deer Trail, reported hail fell for twenty minutes and killed about 200 sheep and put out the eyes of many others. Chickens and ducks were also killed by hail-stones, which are said to have been as large as hens' eggs.

Hayti Unsettled.

By Associated Press.

WASHINGTON, June 29.—A special says: N. B. Walker, who has been engaged in business in Hayti for a dozen years and who was in Port-Au-Prince at the time of the recent uprising which Hippolyte put down so savagely, says the end of the trouble will be either the resignation or assassination of Hippolyte. It is by no means improbable that Legitime may return to power. He is greatly thought of by the best people of the republic. He is an educated man himself and has naturally the support of the wealthy and refined classes.

San Domingo in Line.

By Associated Press.

WASHINGTON, June 29.—San Domingo reciprocity is likely to come closely on the heels of the Spanish-Cuban proclamation. It is understood the details have gone forward to a point where the formalities of ratification may soon be exchanged between the two countries.

Another Failure.

By Associated Press.

BALTIMORE, June 29.—Levi and Joseph Strauss, masters, assigned today for the benefit of their creditors. This failure is the outcome of the assignment of Barth & Strauss two weeks ago.

St. Louis Fire.

By Associated Press.

St. LOUIS, June 29.—The wholesale and retail grocery establishment of David Nicholson was completely burned this morning. The fire was discovered on the fourth floor and spread so rapidly that it was all the firemen could do to save the adjoining property. The north wall of the Nicholson building toppled over on to the one-story building adjoining, and demolished it. Several buildings adjoining that of the grocery firm were damaged by the fire. The fire occurred at four o'clock and the guests at the Ivy House, adjoining, rushed from their rooms and climbed down the fire escape in their night clothes, many of them having narrow escapes from being trapped to death. The heaviest losses in David Nicholson, whose stock and building valued at over \$200,000, is almost totally destroyed; insurance, \$175,000. Other losses amount to about \$16,000, which is partly covered by insurance. The cause of the fire is not known.

Conspirators.

By Associated Press.

PHILADELPHIA, June 29.—Henry H. Yard was arraigned in court to-day to answer to the charge of conspiracy with ex-City Treasurer Bardsley in the unlawful use of public funds. At the request of the District Attorney, the trial of Yard was postponed until September. The District Attorney gave as his reasons for requesting a postponement of Yard's trial, that a decision was expected in the suit against the accused to compel him to answer interrogatories of the city council investigation committee, and that Yard expected to make a statement.

Hayti Quiet.

By Associated Press.

NEW YORK, June 29.—The steamer Osama, which arrived this morning from Haytian ports, reports all quiet at the places they touched and that Hippolyte effectually quelled the insurrection on May 28th. At that time it was learned 280 persons in Alem were killed.

Slave Trade Dying.

By Cable and Associated Press.

LONDON, June 29.—Dispatches received from Zanzibar state that British officers engaged in fighting the slave trade in east Africa report this trade is upon its last legs and that the anti-slavery convention will effectually kill the whole business.

THE SUNDAY LAW.

[Communicated.]

The subject of Sunday legislation has been greatly agitated the last few years throughout the entire United States. The wave of enthusiasm upon this subject seems lately to have been broken near Reno, and the turbulent waters of the great national billows come to us in gentle ripples as clear and as harmless as the waters of our own familiar Truckee. As legislation upon this subject affects the political and social life of every American citizen, it may well be discussed in every newspaper, both of local and world-wide circulation.

The legitimate office of governments is to protect the citizens in their individual rights. In that "immortal document," framed by our forefathers when they renounced their allegiance to the mother country, this principle is thus stated: "We hold these truths to be self-evident, that all men are created equal; that they are endowed by their creator with certain unalienable rights. That to secure these rights, governments are instituted among men." All men before the law possess equal rights; and one man has not the right to infringe upon the rights of any other man. Having examined the Sunday law of Nevada, we find that it is fully adequate to the protection of every man in his rights. It guarantees to every man the right to do as he pleases upon that day so far as he does not interfere with the rights of others. It he disturbs others in the pursuit of their rights, the law takes hold of him. Disturbance of public worship upon Sunday and every other day is prohibited under a penalty of \$500 or three months' imprisonment.

The representative of the American Sabbath Union, who was lately with us working up this subject, told us that the object of that organization is to protect the "American Sabbath," that it is in nowise a religious movement. In this he is at variance with the constitution of the very union that he represents, and with the written assertions of his coadjutors. The constitution of the A. S. U. says in Article 3, "The object of this union is to preserve the Christian Sabbath as a day of rest and worship." Notice it is not the "American Sabbath," but the "Christian Sabbath," and it is to be preserved as a day of worship. In his plea before the Knights of Labor, for help in securing a Sunday law, the Field Secretary of the American Sabbath Union said: "A weekly day of rest has never been permanently secured in any land, except on the basis of religious obligation. Take the religion out, and you take the rest out." More evidence might be adduced, but this is sufficient to prove that this is a religious movement. Dr. Thompson notwithstanding. As religious legislation is, and always has been, evil, we say that Sunday legislation, other than we have, is inimical to the best interests of "American civilization."

Missouri River Rising.

By Associated Press.

KANSAS CITY, June 29.—The danger of a serious flood from the Missouri river becomes greater every hour. At 7 o'clock this morning the river was reported rising at the rate of an inch an hour. In the lower part of Harlem, opposite here, the water is running through the streets and a number of people are moving to higher ground.

St. JOSEPH (Mo.), June 29.—The river has been rising steadily since Saturday and now is within 16 inches of the highest point reached since ten years ago. Residents of the French bottoms north of this city are in a state of alarm and many are preparing to move. The water is still rising and reports received from Sioux City and Omaha show a gain of six inches since last evening. If the river should overflow the French bottoms it is expected a new channel will be cut through, leaving many farms on an island and diverging the stream from the Kansas shore two miles. If the present rate of rise continues 24 hours the stock-yards and a hundred houses in South St. Joseph will be inundated. The situation is serious to the packing interests as well as to hundreds of small farmers on the low lands.

Army Orders Appealed.

By Associated Press.

WASHINGTON, June 29.—A question of interest to army officers has been presented to Acting Secretary Grant for settlement, involving the rights and duties of staff officers. General Howard, commanding the Division of the Atlantic, recently called a court martial and detailed for duty as a member one of the commissary officers stationed within his division. The officer protested against this detail and claimed exemption from duty under the regulation which placed him under the direct orders of the Secretary of War. No decision has yet been given in this case, and it is awaited with great interest by engineers, commissary and other staff officers.

A Californian Wins.

By Associated Press.

BOSTON, June 29.—In the case of the bank of North America of New York vs. Frederick Rindge, the full bench of the Supreme Court ordered judgment for defendant. Defendant is a resident of California, who owned fifty shares of stock of the Haddam State Bank of Kansas. Plaintiff recovered judgment in Kansas for \$5,343 and costs against the Haddam Bank, and as no property could be found, plaintiff finding Rindge in Massachusetts, brought suit under the Kansas law to hold him personally in \$5,000, the amount of the stock held by him.

George of Greece.

By Associated Press.

CHICAGO, June 29.—Prince George of Greece arrived here this morning from Omaha. He is accompanied by Captain Lahmer of the Russian navy and one servant. The Prince is traveling incognito and registered at the Auditorium Hotel as Count Folstor. At the depot he was met by a delegation of the Grecian Benevolent Association and escorted to the hotel. The Prince was much pleased with the reception accorded him by his countrymen.

Charge Denied.

By Associated Press.

EL PASO (Tex.), June 29.—The collector of customs here, in an interview in regard to the charge of fraud by several western papers in the admission of lead ores from Mexico, says fraud is impossible, owing to the system of checks upon importations. He stated that an action for libel will probably be brought against the papers making the charges, the names of which cannot be given.

Lottery Law Breakers.

By Associated Press.

DETROIT, June 29.—Twenty-eight thousand copies of the Detroit Commercial Advertiser and Home Journal issued June 28th are held in the post-office here under the lottery law. The president, vice-president, secretary and treasurer of the company were arrested and fined \$500 and costs.

Libel Suit Lingerin.

By Associated Press.

BOSTON, June 29.—In the case of J. H. Bart vs. the Advertiser Publishing Company, in which the plaintiff had a verdict for \$12,500 for libel, a full bench of the Supreme Court sustained defendant's exceptions and ordered a new trial. Bart was formerly appraiser of the port of New York and the alleged libelous article charged him with fraud in connection with the importation of sugar. The decision of the lower court was reversed because of a refusal of the judge to admit two pieces of evidence which ought to have been submitted to the jury and because of an error in the charge.

Icy Bay Victims.

By Associated Press.

WASHINGTON, June 27.—The Treasury Department has received a letter from Captain Healy, commanding the revenue steamer Bear, dated Sitka, Alaska, June 9th, saying Lieutenant Robinson, who was drowned in Icy Bay, was buried at Sitka on the 8th instant with military honors and that seaman Anderson was buried at the scene of the accident. The bodies of the others drowned were not recovered up to the time of the writing.

Burned to Death.

Special to the GAZETTE.

LOS ANGELES, June 29.—The house occupied by Lorenzo D. Gavitt at Vincent was destroyed by fire early this morning. Gavitt's charred remains were found in the ruins. His son-in-law, Will Parris of this city, the well-known steamship agent, was here this morning, and said he intended to bring Gavitt to the hospital, but the latter was too ill to move. Gavitt was a pioneer. The cause of the fire is not yet known.

Poor Shooting.

By Associated Press.

NEW ORLEANS, June 29.—This afternoon a row occurred on the fruit wharf of the Illinois Central road between factions of long-shoremen over work. Pistols were drawn and ten shots exchanged between the rivals. Fortunately no shots took effect, and the police putting in an appearance the fight was checked. The row created intense excitement and immense crowds gathered.

A Wealthy Fool.

By Associated Press.

LATHROP (Mo.), June 29.—A gang of confidence men last Friday robbed Stephen Trice, a wealthy farmer living near here, of \$3,500 and a fine team and buggy. The swindlers, after securing his money, told the farmer if he said anything about it before Sunday, they would kill him. Trice was so overcome with fright that he never mentioned the affair, even to his wife, until last evening.

The Prince a Grandfather.

By Cable and Associated Press.

LONDON, June 29.—The Queen, today, accompanied by a number of members of the royal family, attended the christening of a daughter of the Duke and Duchess of Fife. The title of the baby, who is the Prince of Wales' first grandchild, by the Queen's command, will be Lady Alexander Victoria Duff, the latter being the family name of the Duke of Fife.

Fish Bait.

By Associated Press.

St. JOSEPH, June 29.—Governor O'Brien has been directed by the Imperial government to revoke his assent to the order in the Council of the Newfoundland government refusing bail to Canadians as well as the French and giving a monopoly to American fishermen. Hereafter license is to be issued to Canadians on the same terms as is given to American fishermen.

Eastern Storms.

By Associated Press.

DALLSBORO (Ind.), June 29.—The severest rain and wind storm ever known here occurred yesterday. Trees were uprooted and streets flooded until impassable. Storms of wind, hail and rain passed over different parts of southeastern Indiana and Kentucky yesterday afternoon. Great damage was done to wheat.

Fruit Sales.

By Associated Press.

CHICAGO, June 29.—Porter Bros. & Company sold to-day four carloads of California fruit at the following prices: Tragedy pears, \$3 85@44; Royal Native pears, \$2 05@2 45; Clyman pears, \$2 50; Koenig Claude pears, \$1 60; peaches, \$.95@1 20; apricots, \$1 05@1 35; Bartlett pears, \$4 75@45.

Boy Drowned.

Special to the GAZETTE.

PORT COSTA (Cal.), June 29.—Last evening the 8-year-old son of M. Sullivan, proprietor of the Grangers' Hotel, was drowned in Carquinez Straits, having gone swimming alone. The body was recovered.

Weather Report.

Special to the GAZETTE.

SAN FRANCISCO, June 29.—Forecast, nearly stationary temperature in northern California; warmer in southern California and northern Nevada.

Red Hot.

Special to the GAZETTE.

SAN FRANCISCO, June 29.—Reports from a number of towns in California showed a temperature of over 90 degrees at 7 o'clock this morning; some of the highest being Vacaville, 94; Davis 94, Winters 96, Dixon 96, and Porterville 98. At 11 A. M. the Signal Service thermometer in this city registered 95½; at noon the temperature was 99 and still ascending. At Winnemucca, Nevada, Eureka, California, and other points north of there, the temperature is much lower and the weather is unusually cool.

To-day's Races.

By Associated Press.

CHICAGO, June 29.—Eli Kendig won, Ashen second, Tender third. Time, 1:48½. Five furlongs—Dearest won, Highland second, Rossmington third. Time, 1:07½.

Special to the GAZETTE.

SAN FRANCISCO, June 29.—Wheat, buyer 91, \$1 59.

TELEGRAPHIC BRIEVITIES.

At Pittsburg, the scaffolding at a new theater in course of erection fell this morning, badly injuring four men. They may die.

The rise in silver in the United States is encouraging to mining and smelting interests in Mexico. Money is easy and in good demand.

Call and See Them.

Attention is called to the advertisement of Beebe & Thomas in to-day's GAZETTE. Those wishing plumbing done will do well to give them a call, for they are here and have come to stay. Their prices are very reasonable, and one don't have to mortgage his home to get a water pipe fixed if he patronizes Beebe & Thomas. Read their ad.

THE following editorial, taken from the Eureka Sentinel, is a fair sample of Democratic doctrines and illustrates how hungry that party is for office, no matter what it has to resort to to get in. The Sentinel intimates that it would swallow Stanford, railroad and all for the sake of political preferment. Just how Mr. Cassidy would reconcile his action in that direction with his policy heretofore expressed through the columns of the Sentinel the GAZETTE is at a loss to know:

"There are three crazy men in the United States who are crazy with ambition. They all want to be in the next Presidential fight, of course. By name they are Benjamin Harrison, Grover Cleveland and Leland Stanford. As singular as it may seem these men are less fitted for the great honor than any other three men in all the land. Neither of them is a man of towering ability, nor is either in close accord with the popular heart or viewed as indispensable to the general welfare by the masses of the American people. There are one million men in the United States who would make a better and more acceptable President than either. And still it is quite probable that Harrison and Cleveland will be the candidates of the Republican and Democratic parties respectively, while Stanford is bidding high for the Farmers' Alliance nomination. There are indications that a part of his great wealth will be used in working up a boom in the new party. His government loan bill on land at two per cent interest is a very captivating idea with the granger who has his farm mortgaged to a shylack at 15 per cent. While it cannot be disputed that Senator Stanford is a monopolist of the highest type, yet his land loan scheme may have sufficient taffy in it to render him acceptable to the farmers. That has its object. And if the new party should hold its convention first and nominate Stanford, what then? Would not the Republican party be compelled to endorse him to stand any show whatever of success? And is not this the only chance under the sun that the Republican party stands of electing the next President? That party will not be 'in it' in a three cornered fight. It might retain a few offices by endorsing the Farmers' Alliance candidate whoever he may be."

THE Democratic press of the State has already set up its howl in opposition to the closing of the Mint at Carson, forgetting, of course, that that institution never turned a wheel or coined a dollar during the Cleveland Administration.

MR. YERINGTON has given orders shutting out the Carson Appeal from circulating among his employees in the shops.

FORT McDERMIT RESERVATION  
Not Open to Settlement Until Instructions Come.  
The Carson News of the 27th inst. says: The papers of the State generally are copying an item to the effect that "the Fort McDermitt Hay Reservation, containing six townships—or nearly 140,000 acres of land, mostly meadow—had been thrown open for settlement, and that plots would be filed in the State Land Office, on July 6th." The facts are that there are less than seven sections, or less than 4,300 acres, in Fort McDermitt Hay Reservation, and nearly 1,200 acres of this is not subject to entry. The plots will be filed July 6th at the United States Land Office, but none of the land will be open for settlement until further instructions from the Hon. Commissioners of the General Land Office at Washington, and then only to homesteaders.

Chinese Suicide.  
The Eureka Sentinel of the 27th inst. says: A Chinaman, Ah Tung, committed suicide at R. Sadler's ranch last Saturday. He had been despondent for several days and sent to some of his China friends here for opium, which he took in large quantities and which caused his death. He was aged about 35 years, and was buried by the Chinese.

A Quick Cure for Rheumatism.  
In many cases persons subject to rheumatism, have got prompt relief from pain by applying Chamberlain's Pain Balm. The relief it affords is worth many times its cost, which is but 25 cents, and its continued application effects a complete cure. For Sale by J. B. McCullough.

# THE HOME INTERESTS.

CANDLES that have been frozen never drip.  
Use soap bark for cleaning woolen dress goods.

The best butter in the world naturally can be sadly injured by the use of very poor salt.

The best thing to clean linens is common soda, rub on briskly with a damp cloth, after which wipe dry.

The best way of preserving silver ornaments is to wrap them in silver paper and lay them in a tin box filled with arrowroot—dry arrowroot, not, of course, mixed with water.

By applying a little of the best ear-earing oil varnish carefully with a camel's hair brush to the edges of broken china, the parts being neatly joined together, the fracture will, when thoroughly dry, be hardly perceptible, and the china will stand fire and water.

To keep glassware bright, wipe directly from the hot suds. Tumblers used for milk should be thoroughly rinsed in cold water before being immersed in hot suds, as hot water seems to drive the milk into the glass and give them a dingy appearance.

In changing feathers, always put them into new ticks, as the feathers will surely prick through washed ticks. I believe our grandmothers rubbed the inside of the tick with hard soap to prevent this, but I should prefer new ones. Old ticking can always be put to good use.

## FUNNY LITTLE FOLKS.

PEDAGOGUE—"Can you give me a sentence illustrating the difference between mind and matter?" Tommy—"Yes, sir! When I don't mind, pretty soon they's suthin' th' matter."

TEACHER—"Tommy, can you give me a sentence in which but is a conjunction?" Tommy—"See, the goat butt the boy. Butt is a conjunction and connects the boy with the goat."—Brooklyn Eagle.

A LITTLE girl born on the 29th of February said to her mother—"Mamma, if I had been a year older and there hadn't been any 29th of February in that year, wouldn't I have been born at all?"

"WHAT do you do with that baseball mask?" "Why, Johnny is very hard sometimes, and the only closet I have to shut him up in is where the preserves are. I put the mask on him with a lock, and the preserves are safe."

MAMMA—"You naughty girl! You've eaten every cookie there was on the plate. I told you you might have three." Little Edith—"Yes, but didn't tell me which three, so I had to eat all to be sure to get the right ones."

A KIND-HEARTED lady found a youngster crying on the street. "What's the matter, bubby?" she asked. And bubby answered—"How would you like to wear your long-legged brother's pants cut down, so the bag of the knees came out at your ankle?"

## HARDLY CREDITABLE.

J. B. BROADWELL, of Alpharetta, Ga., owns a goose that walks about on a wooden leg made from a piece of bamboo.

MR. RAZOR is the suggestive name of a man who was arrested the other day at Hannibal, Mo., for carrying a concealed weapon in his boot.

UNLESS a Kansas editor lies there is an old gentleman in Booneville, that state, who has carried the same umbrella every day in the week for sixteen consecutive years.

MARY JANE CHENEY JULIA ANN ADRIANA FRANCIS FEDORA ELIZABETH MAHIA QUIT TIDE DANT MORRISON is the abbreviated appellation of one of the colored boys of Atlanta.

OVER a year ago William Boncet, a Norristown hotel proprietor, placed a brass check on the back of a snapping turtle, which he released. The plate bore Boncet's name and this inscription: "Good for one drink." A few days ago he found the animal strolling over his property, and thinks he came back for the drink.

In 1823 Arthur St. Clair, of Cincinnati, sold a piece of land for \$2.25, which is thus described in the deed: "The 1-1,000 pt. of an inch from the n. e. corner of lot No. 23, and running south 1/4 of an in.; thence w. to the back line of said lot; thence n. 1/4 of an inch; thence e. to point of beginning." This is probably the smallest real estate transaction on record.

## THE DUCKS AND GEESE.

ONE advantage with ducks is their rapid growth.  
GEESE eat the grass close down to the roots and often kill it out in this way.

It is sometimes necessary to assist ducks out of the shells, but rarely if ever chickens.

DUCKS, if kept in a good condition, rarely, if ever, get lousy, the oily nature of their feathers preventing this.

THE best breed of geese for feathers is the Embler. They are entirely white, and white geese feathers bring the best prices.

DUCKS do not have the cholera, croup or gapes, and hawks do not bother them; they will lay more eggs and the eggs will hatch better than hen eggs.

## INDUSTRIAL AND FINANCIAL.

A CHEWING gum concern in Brooklyn has become a stock company with a capital of \$1,000,000.

AN average crop of hay in the United States is estimated at 40,000,000 tons and the value is estimated at \$387,000,000.

THE first carload of cedar wood was shipped from Arkansas to Europe the other day. It will come back in the shape of lead pencils.

A CONSIGNMENT to a single London dealer not long ago consisted of 33,000 dead humming birds, 80,000 aquatic birds and 800,000 pairs of bird wings.

SO RAPID is the production of ship rivets by machinery that one train of rolls feeds four machines, which turn out sixteen tons of rivets in twenty-four hours, the work going on night and day.

# CON STIPATION

Affects half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches this important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose prevents return. We refer by permission to C. E. Elkington, 125 Locust Avenue, San Francisco; J. H. Brown, Patuma; H. S. Winn, Geary Court, San Francisco, and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Elkington writes: "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have a headache. After taking one bottle of J. V. S., I am in splendid shape. It has done wonderful things for me."

A NEVADA PIONEER.

Comes Into Prominence in the Selection of a Horticulturalist for the World's Fair. A. T. Hatch, who has been a ho-doo to the aspirations of Colonel Forsythe, the Fresno vineyardist, to become Chief of the Bureau of Horticulture, was formerly a resident of Nye county in this State. He located the townsite of Ellsworth in 1884, in the Mammoth range, ten miles west of Lone, and probably did more than any other man in developing the mining industry of that section. He was known as a rustling, irrepressible prospector, and either owned all, or had a large interest in all the early discoveries of that section. With him was interested Manuel San Pedro, at that time considered a Spanish expert in silver mines. They were the first to get.

GENERAL ROSECRANS.

Interested there and succeeded in selling some small interests to him. In the development of his mining interests, which were speculative and intended for sale in the New York market, Rosecrans sent Professor J. E. Clayton to examine and report on the mines and geology of the district. He came and spent some time in making his observations and was the guest of Hatch, who occupied a pretentious double log cabin, with a floor of mother earth, and a roof of the same, resting on a thatch of willows and bunch grass. Hatch, whose leading characteristic was acquisitiveness, accompanied Professor Clayton everywhere, and was soon the most conversant of any in the geology of the district and its mineral bearing qualities. He didn't learn anything encouraging from Professor Clayton, but he wisely kept his own counsel, and without wasting time on his old locations, none of which contained silver enough to be worked successfully, he busied himself in hunting for others. In this he was finally rewarded by finding the

MARBLE FALLS.

A deposit carrying gold in paying quantities. In 1873 he sold his mining interests at Ellsworth and cleaned up with about \$13,000. Then he moved to Vacaville, Cal., and became an orchardist, and studied the subject as thoroughly, in practical experience, as he did mining in Nevada. In a few years he had an orchard of 525 acres near Vacaville, which was one of the sights of that section, and on which he plastered a mortgage of \$110,000. He became a leading fruit grower, and expert on scale and woolly aphids and all the bugs that infest the trees, and has been a leading spirit and President or director of different boards of trade and fruit unions for some years past, and has developed such a practical knowledge of horticulture that he dares to say that Colonel Forsythe doesn't know anything about it; and goes further, by challenging the doughty warrior, the owner of the pretty chalet near Fresno, to meet him on the field of honor and putigate his assertion with bullets. This is to be deplored, for if the Colonel has the courage of Hatch the fight will not end until somebody is hurt. Hatch is a small man in stature, but he is all courage and resolution, and, while quick to resent an insult, is ready to forgive when reparation is offered.

A POINTED QUESTION.

Arthur McEwen Pokes His Finger Into Steve Gage.

Arthur McEwen paid the GAZETTE a pleasant call this morning. He is the same old Mac of years gone by. During the conversation the GAZETTE made a fruitless attempt to tap his knowledge box on the political outlook, but found him very close mouthed on that subject. He did say, however, that he thought it was "the same old thing over again," for he recently saw Black Wallace, M. D. Foley and Steve Gage together at the Palace Hotel, San Francisco. After shaking hands with all of them he inquired for Christ. Steve did not comprehend the significance of the inquiry and asked Mr. McEwen for an explanation. Mac replied that the holy writings reported Christ as saying that "where two or three are gathered together in my name there will I be also." Mr. Gage saw the point without having a diagram drawn.

Mr. McEwen will remain here several days, taking a much-needed rest from the bustle incident to newspaper life in the city.

SCHOOL TEACHERS ELECTED.

By the Trustees of Reno for the ensuing year.

The Board of School Trustees for Reno District, consisting of Messrs. Pinner, Gould and Jamison, met on Saturday and elected the following teachers for the ensuing year: J. E. Bray, Principal of the High School and City Superintendent; First Assistant in High School, Mrs. M. S. Doten; Second Assistant in High School, Miss Mable French; Eighth Grade, Miss Cora Angell; Seventh Grade, Mrs. L. C. Booth; Sixth Grade, Miss Flora Northrop; Fifth Grade, Miss Kate Sherman; Fourth Grade, Miss Nellie Rulison; Third Grade, Miss Lena Joy; Second Grade, Miss Fanny Short and Miss Echo Loder; First Grade, Miss Lizette Unruh, South Side Primary, Miss Mary Snow.

Death of an Old Nevada.

Thomas Ingram died in Grass Valley last Thursday. He was at one time foreman of the Belmont mine in Nye county and afterward employed in the Comstock. He was a member of Madison Lodge, F. & A. M., and of the Royal Arch Mason Chapter of Grass Valley; also of the Odd Fellows' lodge of Virginia City. It is understood that deceased carried life insurance policies aggregating \$9,000, thus leaving his bereaved family well provided for.

A Wise Selection.

The Board of School Trustees acted wisely in selecting Prof. J. E. Bray, Principal of the Reno High School. Prof. Bray's graduating class gave proof that his methods of teaching were up to a standard of excellence seldom excelled, and the GAZETTE congratulates the Board on the choice it has made.

THE STATE FARM.

What is Being Done by the Officers of the Experiment Station.

In company with Professor McDowell a GAZETTE reporter paid a visit to the farm connected with the State University Agricultural Station yesterday. Considering the time Professor McDowell has had and the work he was obliged to do in preparing the ground for cultivation, the farm looks very well. He has an eighth of an acre planted in tomatoes and cabbage of different varieties that are healthy and promise a big yield. Adjoining is an acre sown to white Australian wheat. Professor McDowell is experimenting on the number of pounds of seed required per acre. First, he has sown a piece at the rate of 45 pounds per acre; next, and adjoining, is a quarter of an acre sown at the rate of 75 pounds; then a piece at 90 pounds per acre, and still another at the rate of 105 pounds per acre. The 105-pound sowing is the most thrifty, and from present appearances will give the largest yield. Professor Blount, for many years at the head of the Experiment Station of Fort Collins, Col., says, however, that any piece of land sown to grain with over 40 pounds per acre is seed thrown away. Professor McDowell holds to the opinion that he will get better results from the 90-pound sowing. The wheat referred to is very backward, as it was not sown until May 7th, for the land was in alfalfa and had to be broken up and cleared of rocks. Professor McDowell holds to the opinion with vitrol, soaking the seed, sown on part of the land in vitrol water. If we may judge by the looks of the grain as it stands to-day, vitroling wheat is time and money wasted.

Adjoining the wheat patch are fifty-five varieties of potatoes, selected from an assortment of ninety, that look well and promise a large yield, and by the way of parenthesis we will say that he dug new potatoes the size of a hen's egg on the 11th of June, grown from a volunteer crop, which would indicate that for early spuds, fall planting might be a success. He has a piece sown to winter rye, growing without irrigation, that looks very well, but the seepage from a small ditch that runs along the edge of the piece proves conclusively what a little water will do; the grain that gets the benefit of the seepage stands fully a foot above that which derives no benefit from the water and well headed and looks particularly thrifty.

He is testing thoroughly the cultivation of sugar beets. The patch looks well now and this fall the GAZETTE hopes to get a very favorable report of sugar beet culture from all parts of the State.

A half-acre of corn growing would seem to give the lie to the statement that corn cannot be successfully cultivated in Nevada.

A small patch sown to flax has a remarkably good stand, and promises to demonstrate that flax can be successfully grown here.

He also has a small piece planted to rye, the California blue plant, which is attracting so much attention in the Golden State. It is not yet out of the ground, but Prof. McDowell is in hopes of reporting favorable results in that direction.
